# SUBJECT INDEX

## Aging

- bladder training for incontinence in, 93
- and geriatric rehabilitation education for nurses, 91
- hospital discharge experience in, 125
  - and perspectives of elders and family members, 190
  - and properties of referral data inventory, 151
- mental health care for depressed older adults, 145
- and prodromal falls in nursing home residents, 18
- sleep/wake patterns in, 75

Alzheimer's disease, support groups for caregivers, 112

Anxiety, and salivary secretory IgA after back rubs, 2

## Back rubs, salivary secretory IgA after

- Bed rest, postcardiac catheterization, 14
- Behavior problems in confused residents of nursing homes, 132
- Bladder training for older incontinent women, 93

Catheterization, cardiac, bed rest requirements after, 14

Cholesterol levels, and cardiac risk reduction education, 67

Circadian rhythms, and sleep/wake patterns in elderly persons, 75

Computer knowledge and experience of nurses, 97

Confused residents of nursing homes, management of, 132

Coronary artery disease

- and discharge information for recovery, 170
- risk reduction with education programs, 67

Cost-effectiveness of two intravenous additive systems, 59

Crying infants, pacifiers affecting oxygenation in, 52

Dementia caregivers, support groups for, 112

Depression, and mental health care for older adults, 145

Dietary behavior in pregnancy, 28

Discharge planning

- after coronary artery bypass surgery, 170

for elderly patients, 125

perspectives of elders and family members in, 190

questionnaire for clinical practice, 193

referral data inventory in, 151

## Editorials, 1, 51, 111, 163

### Education

- in bladder training for older incontinent women, 93
- geriatric rehabilitation program for nurses, 91
- machine learning of preterm birth risk, 141
- programs for cardiac risk reduction, 67
- in support groups for dementia caregivers, 112
- for woman at risk for preterm birth, 118

Falls, prodromal, in nursing home residents, 18

Families, concerns with hospital discharge of elderly patients, 125, 190

Feeding tubes, nasoenteral, verification of proper placement, 183

Functional status assessment with nursing intensity system, 178

Grant implementation, staff development in, 38

## Health care

- and cardiac risk reduction education, 67
- system built on greed, 111

### Heart disease

- and discharge information after coronary artery bypass, 170

postcardiac catheterization time-in-bed study, 14

risk reduction with education programs, 67

Immunoglobulin A, secretory, salivary levels after back rubs, 2

Incontinence, urinary, and bladder training for older women, 93

Infants, crying, pacifiers affecting oxygenation in, 52

Intervention research, integrity in, 32

Intravenous additive systems, cost-effectiveness of, 59

Lipid levels, and cardiac risk reduction education, 67

Locus of control, and dietary behavior in pregnancy, 28

Loneliness in psychiatric patients, 7

**M**ental problems

- care for depressed older adults, 145
- loneliness in psychiatric patients, 7
- management of confused residents in nursing homes, 132
- support groups for dementia caregivers, 112

**N**asoenteral tubes, verification of proper placement, 183

- Nursing homes
  - and geriatric rehabilitation education for nurses, 91
  - management of confused residents in, 132
  - prodromal falls in, 18
- Nursing practice
  - back rubs affecting salivary secretory IgA, 2
  - computer knowledge and experience in, 97
  - geriatric rehabilitation in, 91
  - grateful recognition of, 51
  - integration with research, 199
  - intensity system as measure of patient function, 178
  - management of confused residents in nursing homes, 132
  - productivity affected by IV additive systems, 59
  - work environment and job satisfaction in, 84
- Nutrition, and dietary behavior in pregnancy, 28

**O**xxygenation in crying infants, pacifiers affecting, 52**P**acifiers, and oxygenation in crying infants, 52

- Patients
  - functional status assessment, 178
  - as research subjects, 158
- Poster sessions, tips for viewers in, 208
- Pregnancy
  - dietary behavior in, 28
  - and learning needs of women at risk for preterm birth, 118
  - preterm birth risk assessment, 141

**P**ressure gauge to verify proper placement of nasoenteral tubes, 183

- Psychiatric patients, loneliness in, 7

**R**eferral data inventory, psychometric properties of, 151

- Research
  - advances in, 1
  - and dialogue at poster sessions, 298
  - formation of local consortiums, 107
  - integration with practice, 199
  - and integrity in intervention studies, 32
  - presentations of papers and posters in, 147
  - problem statements in, 47
  - responsibilities when patient is research subject, 158
  - staff development needs in, 38
- Rogers, Martha E., 163

**S**alivary secretory IgA after back rubs, 2

- Sleep-wake patterns in elderly persons, 75

- Support groups for dementia caregivers, 112

**T**emperature recordings with tympanic thermometer, 165

- Touch interventions, and salivary secretory IgA after back rubs, 2
- Tube feedings, verification of proper tube position in, 183
- Tympanic thermometer readings, accuracy of, 165

**W**ork environment, and job satisfaction of nurses, 84
